

PREPARING AN ADMINISTRATIVE HISTORY FY2003 REPORT

Timpanogos Cave National Monument

Summary

An administrative history will be produced that will address the major issues that have shaped the current management philosophy of Timpanogos Cave National Monument. The history will include issues relating to changes in superintendency, visitor education, development of resource management programs, the basis for pending issues, and changes in land acquisition policy and boundaries. It will also address the impact these issues had on the relationships with park neighbors.

Progress

An outline and a work plan have been created to ensure that the Administrative History will be completed by the summer of 2004. The project was decided to be performed in house. The project is being lead by the Acting Museum Curator, Cami Pulham. Printing cost have contract and most of the background research is completed. The finished product will be available by the end of FY2004.
